

# Intelligent Data Centre Manager (iDCM)

Reliability. Performance. Efficiency.

iDCM sets a **new benchmark** for external chiller management system in modern Data Centres.

## Key Benefits

Reducing Datacenter PUE by **optimizing chiller plant efficiency**

Two optional configurations available: **Mild redundancy** or **Full redundancy**

Reducing required field sensors by **40%** through the integration of iDCM with **Daikin chiller embedded control logic**

## Control Panel Internal Components

UPS Power Supply

Miniature circuit breaker

Niagara Framework Controller

Shuko Type Power Socket

UPS Module

Nr. 2 Remote I/O Communication Module

Ethernet Switch with 24 available ETH ports

1000 x 600 x 300 mm
